

**SPEC-PRO®** **BUILDER MAX®**

**SPEC-PRO® BuilderMax® Exterior** is a professional quality, 100% acrylic exterior latex that provides an economical option with good adhesion, hiding, and coverage on a variety of exterior substrates. It is specifically formulated to meet the professional application needs of high volume new home, multi-family, commercial and large repaint projects. It offers a full body feel and provides a good balance of build capabilities and sag resistance for spray, brush, or roll application. BuilderMax® can be applied down to 35°F (2°C) and provides a mildew resistant coating on many surfaces.

## FEATURES & BENEFITS

- Good adhesion provides resistance to chipping, peeling, and blistering
- Application in temperatures as low as 35°F (2°C) extends the painting season
- 100% acrylic latex formulation results in excellent longevity and overall durability
- 5-7 years warranty depending on exposure/environment

## CONFORMANCE STANDARDS

50 g/L VOC compliant in all regulated areas nationwide.
